WOMEN AND MEN.

Where Liberty is not There is My Country.

When the great French Revolution broke out, Thomas Paine felt an immediate wish to take a hand in it. His book"Common-Sense" had probably done more than any other book to bring the American Revolution to a point, and his other publication, "The Crisis," to carry it safely through. He had retired with honor. Congress voted him \$3000 for his services, and the State of New York gave him five hundred acres of land, but he was not content to live on these comforts when he could help the cause of treedom elsewhere. When his friends urged him to stap at home and quoted to him the Latin motto, 'Where liberty is, there is my country" (ubi libertas ibi patria), he said that this was a motto for a coward, The true motto for a brave man was he said, "Where liberty is not, there is my country"; and so he west to I will wear as the jewel of my life Paris and took a hand in the French Revolution. When he opposed the killing of the king, he was shut up in unbought vote of the brave manhood | the Bastile, and only escaped the guillotine because, when the doors of those prisoners ordered to execution for the next day were marked with chalk, it happened that his door was open and was marked on the wrong side, being If we succeed, if we trust the prin afterwards closed again, so that he escaped. Thus he followed up his motto, "Where liberty is not, there is my country." For a century since his time the

American nation has habitually acted on this motto rnd given its sympathy to the under side. Greece, Poland, Hungary, Italy, Ireland, Mexico, Cuba. the South American republics, have Mrs. Micheal Curtain, Plainfield, called forth the national sympathy, because they were or seemed to be opcaught cold, which settled on her pressed. No one has asked whether lungs; she was treated by her family their heroes were all Washingtons and physician, but grew worse. He told their generals all Grants. ## FOR SCROFULA

S. S. Is the Only
Remedy Equal to this
Distinate Disease.

There are desens of remedies recommended for scrotuls, some of them no doubt being able to afford temporary relief, but S. S. is absolutely the only remedy which compilately curse it. Scrotuls is one of the most obstinate, deep seased blood diseases, and is beyond the reach of the many so-called purifiers and tonics because something more than a mere tonic is required. S. S. S. is equal to any blood trouble, and never fails to cure Scrotula, because it goes down to the seat of the disease, thus permanently eliminating every trace of the taint.

The serious consequences to which Scrotula surely leads should impress upon those afflicted with it the vital importance of wasting no time upon treatment which can not possibly affect a curs. In many cases where the wrong treatment has been relied upon, complicated glandular swellings have resulted, for which the doctors insist that a dangerous surgical operation is necessary.

Mr. H. E. Thompson, of Milledgeville, Ga., writes: "A bad case of Scrotula broke out on the glands of my neck, which had to be lanced and caused me much suffering. I was treated for a long while, but the physicians were unsable to cure me, and my condition was as bad as when I began to improve as soon as I had taken a few bottles. Continuing the remedy, I was soon cured permanently, and have never had a sign of the disease to return." Swift's Specific—

S. S. S. FOR THE BLOOD
